

Dave,

I just wanted to say thanks for the work you did on my floors. The concrete looks absolutely amazing. I can't believe how well they came out. My floors had a couple of trouble spots that I was worried about, but you can't even notice now. Your guys worked fast, and the quality couldn't be better. I get compliments from everybody who comes over. Even the exterminator asked me who did my floors. If I meet anyone who is looking to stain their concrete, I will definitely send them your way. If I ever move from this house, I will definitely call you to do the floors on my new place.

Thanks for all your hard work,

Andy Hunt
