

Hi Dave!

I just wanted to thank you for the beautiful floors you have given me! I can't believe I actually like them better than I thought I would! My husband and I researched acid staining for the past year before making the decision to go with them and I am so glad we did! You and your team were very professional and thoughtful. You are a man of your word and I greatly appreciate that in this day and age. I have already recommended you to several family members and friends, so I'm sure they will be contacting you for their own needs. Down the road when I'm ready to stain my bedrooms, you will be the man I call!

If any one is having any second thoughts about your company or the service you provide, please put them to rest, you will be with a good reliable and trustworthy company!

Thanks again and I hope you have a Wonderful Holiday!

I'll be talking to you in the future for certain!
